Subject: Drinking water safety in Pismo beach

Freeport McMoRan has asked for an exemption from the order to cease injecting oilfield waste water into the aquifer used for drinking water in our community. There are at least 100 water supply wells within one mile of the oil field in Price Canyon near Pismo Beach. Please protect our water source our aquifer is our only source of drinking water at this time. The only other option would be desal and small towns can't afford that.
